Free Training Workshops Hazmat Motor Carrier Security Training 2010 and 2011 Schedule

In a continued effort to enhance the security posture of the HazMat motor carrier industry, TSA has partnered with PHMSA to offer free security training workshops that build upon TSA security guidance and current U.S. DOT security planning and training regulations (49 CFR 172.704 and 49 CFR 172.800). TSA will present voluntary security action items (SAIs) and discuss future security regulations. PHMSA will also present security related information and discuss the new HM 232F. All participants will receive free security training and planning resources and tools to incorporate into their organization's security program.

To pre-register contact:

Phone: (505) 254-3700 Ext. 0

Fax: (505) 938-7941

E-mail: register@tsa-sait.org

Web: www.tsa-sait.org

To contact TSA with questions:

E-mail: highwaysecurity@dhs.gov

Or visit: www.tsa.gov/highway
