

# TSA: What to Know Before You Go

## Face Masks and Social Distancing

Practice social distancing.

6 feet

Checkpoint floors have visual reminders of appropriate spacing.

TSA officers are required to wear surgical masks and gloves.

TSA is installing acrylic barriers at points of interaction between passengers and TSA officers. (e.g., checkpoint, checked baggage drop-off, etc.)

Passengers are required to wear face masks that fully cover their nose and mouth throughout the airport experience.

Travelers will have to adjust their face masks for ID verification or remove for secondary screening.

## Reduced Physical Contact

Travelers keep possession of their IDs and boarding passes, place on the reader, and hold up for visual inspection.

Remove belts and all items from pockets and put them in carry-ons instead of bins.\*

Remove food items from carry-on bags and place in bin for screening.\*

Travelers may be directed outside of the checkpoint to remove or repack items (e.g., laptops, liquids, gels, aerosols and large electronics).

\*Does not apply to TSA PreCheck™ members.

## Cleaning and Disinfecting

TSA is allowing one liquid hand sanitizer container, up to 12 ounces per passenger, in carry-on bags.

TSA officers will change their gloves with each pat-down and upon passenger request.

New Explosives Trace Detection swab used for each person.

TSA has increased cleaning and disinfecting of frequently touched surfaces and security screening equipment, including bins.

Stay Healthy. Stay Secure.
